

High in the sky, a little star
named Stella twinkled brightly

Every night, Stella drifted across
the sky, watching over the world
below.

**Stella loved to watch over the
world below her.**

The image is a vertical composition. The top half shows a dark blue space filled with numerous small white stars and a few larger, bright yellow stars with prominent diffraction spikes. On the left side, a small, blue and white Earth is visible. The bottom half of the image shows a night view of a city from an elevated perspective, with a large body of water in the center. The city lights are a mix of yellow and white, creating a glowing effect. The entire scene is overlaid with a pattern of bright yellow and white starburst effects, giving it a magical or ethereal feel.

**She saw city lights glowing
softly in the night.**

**She saw gentle waves shining
under the moonlight.**

**As the night grew darker,
Stella began to feel sleepy.**

One by one, the children closed their eyes and fell asleep.

Speaking softly...

One by one, the children closed their eyes and fell asleep.

**Stella found a fluffy cloud to snuggle
into for the night**

Goodnight, little star. Sweet dreams.
